

the FCC should not implement
any proposal that would lessen
Indiana's Telephone Privacy law
protections.

Indiana's Telephone Privacy law
has improved my time at home. I used to receive all kinds of
phone calls per week, and I have an unlisted number. I still receive
calls from telephone companies every week. I realize they consider
me as a previous customer but I have asked them to remove me from their calling
list. I would like to have my phone number published
in the phone directory someday if I didn't have to worry about the phone calls
from advertisers. If somehow these solicitating calls were eliminated you would
find more phone numbers listed in phone directories. I know it is only my
opinion, but thank you for letting me comment on this.
